DESERET NEWS DAY.

Fifty-fourth Anniversary will be Celebrated at Saltair on Wednesday.

Wednesday next, June 15, will be the fifty-fourth anniversary of the founding of the Deseret News, the first number having been issued from the pioneer press, on exhibition in the "News" basement, on June 15th, 1850. In commemoration of the event, the Deseret News employees, conforming to a custom established last year, will indulge in an excursion to Saltair, and the various departments of the "News" will be closed at 3 o'clock, to allow all hands to participate. Only the countingroom and the book store, where the branch United States postoffice is located, will be kept open. Most of the employees will take the 4 o'clock train. The carriers will make an early distribution of the paper that day, will come by the 5 o'clock train, and the remainder of the afternoon and evening will be spent in dancing, social converse, picnicking, etc. No set program has been arranged and the event will be merely a social reunion.

AMERICA'S SUMMER RESORTS.

When it begins to get hot and dry one's thoughts naturally turn toward the lakes and rivers and the seashore of New York and New England, and we begin to wonder how much it would require of time and money to make the trip. A lot of these questions are answered and a lot of information given free in "Four-Track Series" No. 3, "America's Summer Resorts." Sent on request of a two-cent stamp, to George H. Daniels, General Passenger Agent, New York Central & Hudson River Railroad, Grand Central Station, New York.

OLD TELEGRAPHERS.

LAY FOR TWELVE HOURS.

Man With a Broken Leg Has an Unfortunate Experience.

John Barter, a lineman, is at St. Mark's hospital, suffering from a broken leg, an injury received about a mile and a half south of Hooper. The accident occurred on Friday night, according to Barter, and for 12 hours he was without aid of any kind. He was discovered finally by a rancher, and the Oregon Short Line Railroad company had him brought to this city.

Barter stated that he was walking to Ogden and when nearly to Hooper was struck by a train and knocked over. Until daylight he lay in an unconscious condition and his cries even then attracted no attention.

The victim's nearest relatives are in California. They have been notified.

JENSEN DISCHARGED.

Examining Board Finds That Farmer Ward Man is Not Insane.

County Clerk James and Drs. Mayo and Odell examined Julius Jensen of Farmers ward as to his sanity yesterday and decided that the man, while not of rational mind, is not a fit subject for the mental hospital. Jensen, who has twice before been treated at the state mental hospital, was examined upon complaint of C. W. Butler, his next door neighbor. Mr. Butler claimed that Jensen had threatened to kill his children, had thrown stones at his house and had attempted to steal his horse. Other neighbors of Jensen testified as to his peculiar actions. Mr. Butler has been advised to institute criminal proceedings against Jensen.

FLOTO'S CIRCUS

HERE NEXT WEEK.

One of the many features that will be appreciated by those who visit the Great Flo to show, which will exhibit in Salt Lake on Monday and Tuesday next, is the grand concert rendered every afternoon and evening by Prof. Thacker's Military and Concert Band, composed of twenty-five of the best concert musicians that could be obtained. They are all soloists and many of them are composers of note.

This band is stationed in the first large tent as you enter the exhibition, and at 1 o'clock in the afternoon and 7 o'clock in the evening, immediately upon the opening of the doors, they render a concert of one hour's duration.

It is not a concert such as is usually called a concert by similar traveling organizations, but the program contains numbers that are rendered only by the leading concert bands of the country. While classic music is presented, the leading popular airs of the day are not forgotten.

JURY'S VERDICT IS "NOT GUILTY."

John Rice, Alleged Murderer, Discharged, Under Instruction From Judge Morse.

EVIDENCE WAS NOT SUFFICIENT.

Did Not Corroborate the Confession of George Muncey—Latter's Wife Is Messina.

Acting under instructions from Judge Morse, the jury in the case of the State of Utah vs. John Rice, who was charged with the murder of Fred Beutler in this city on Feb. 25, 1897, late yesterday afternoon returned a verdict of not guilty and the defendant was discharged from custody. The instruction to the jury was given by the court upon motion of Attorneys Hamilton and Weber, who made the motion immediately after the state had concluded all of its testimony with the exception of that of George Muncey, whose confession of the crime led to the arrest of Rice and held that the evidence as submitted by the state was not sufficient, under the statutes, to corroborate the confession of Muncey, who was an accomplice of the accused men.

MRS. MUNCEY MISSING.

The sudden determination of the case is due to the fact that one of the state's witnesses, Mrs. Elizabeth Muncey, wife of the man who made the confession, could not be found yesterday afternoon when wanted to testify in the case. The woman had been instructed to be in court at 2 o'clock, but she failed to appear at that time. Dist. Atty. Smith asked that an attachment be issued for her and his request was granted. Deputy Sheriffs Cowan and Smith, armed with the attachment, immediately went in search of the woman, but all their efforts were in vain, for they could not find her. The court took a recess of about 30 minutes to wait for her, but when the deputies returned without her the session was again resumed. District Attorney Smith was given permission to re-examine the jury before testimony at the preliminary hearing.

INSTRUCTIONS ASKED FOR.

At the conclusion of the reading of the testimony and before Muncey testified, the court instructed the jury to return a verdict of not guilty. The motion was granted and the instruction given. After Rice had been discharged, District Attorney Smith moved that the case against Abe Hunter be dismissed as the testimony against him would be the same as that against Rice. The motion was granted and Hunter was also ordered discharged from custody. The result of the case is quite a blow to Sheriff H. Rice and his deputies as they worked hard for several months in tracing the crime to Muncey and in getting a confession from him and they are of the belief that they had the guilty parties.

HEALTHY MOTHERS.

Mother should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother with a baby in her arms coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist? Mothers should be made to understand that a mother who is in poor health is a danger to her child, when Dr. Boesche's German Syrup would put a stop to it at once? No mother should be without this old and tried remedy in the house for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can be speedily cured by German Syrup, so can hoarseness and coughs and the bronchial tubes. It makes expectation easy, and gives instant relief and refreshing rest to the coughing victim. New trial bottles, 25c; large size, 50c. At all druggists. G. G. GREEN, Woodbury, N. J.

CATARRHAL NERVOUSNESS.

A Condition Known as Systemic Catarrh-- A Congressman's Indorsement.

D. E. G. CROWE, a physician and a very influential man in Alabama and chairman of the Populist State Committee, in a recent letter to Dr. Hartman, of Columbus, Ohio, says:

Washington, D. C.
"Peruna is a most valuable medicine. It affords me unlimited pleasure to testify as to the merits of your remedy as a catarrh cure. I have used it as such and find it is of very great benefit when my nervous system is run down. I heartily recommend Peruna to all whose nervous systems are deranged."
—G. B. Crowe, M. D.

The nervous system is the source of all our bodily powers, mental or physical.

The brain and spinal cord generate the power and the nerve fibres convey the power to every part of the body.

It is the nerves that give the heart power to beat; it is the nerves that give the arteries the power to contract, and thus regulate the flow of blood through them.

Each artery is provided with an elastic or muscular coat, which is capable of contracting or expanding as to permit more or less blood to pass through, according to the needs of the body.

When the nerves are paralyzed or weakened this contractile power of the blood vessels is wholly or partly destroyed.

This produces congestion, especially of the mucous membrane lining the various organs of the body.

When this congestion continues for some time it is known as chronic catarrh.

The congestion may occur in the mucous membrane lining the nose, throat, bronchial tubes, stomach, bowels, kidneys and pelvic organs.

Whenever it occurs it produces the same condition—chronic catarrh.

J. H. Huling, ex-Member of Congress from West Virginia, writes:

CONGRESSMAN J. H. HULING.

"Peruna as a cure for catarrh and a tonic of most serviceable excellence is beyond all question, as has been proven by many of my friends who have been benefited by its use."—J. H. Huling, Charleston, W. Va.

RAILWAY EXHIBITS AT THE WORLD'S FAIR.

The railway exhibits at the St. Louis World's Fair have been collected and prepared with a view not only of showing present methods, but also of comparing them with past methods of development in this and other countries. The visitor sees the first locomotive that was constructed, as well as the latest and more perfect specimens of the builders' art; there are models of English and American freight yards, showing how commerce is distributed at great railway terminals and delivered to connecting lines solely by the power of gravitation.

And no less amazing is the progress of the electric railway, which is clearly illustrated from the slow horse car to the third rail system with a demonstrated speed capacity of 130 miles an hour.

From all of which one is impressed with the thought and care that have been expended to organize and present the greatest exposition ever known; not alone the greatest mechanically, but architecturally, artistically and in an ethnological way.

Further particulars may be gleaned from our World's Fair announcements, which appear from time to time.

LEON J. CHARLES, ATTORNEY-AT-LAW, WAS VERY NEAR NERVOUS COLLAPSE.—SAVED BY PE-RU-NA.

Leon J. Charles, Attorney at Law, Winslow, Arizona, writes:
"For a man taken up with the daily routine, and rushed and pushed constantly to do thirty hours' work in twenty-four, there will invariably come a time when nature demands her due. I was on the edge of just such a breakdown when Peruna was recommended to me, and proved a helper and a friend. It seemed impossible at the time to take a vacation, and yet the constant brain fog seemed to compel it. Peruna built up the broken down system, restored me to a normal condition, and through its use I was enabled to continue my work. I have learned to appreciate Peruna very highly, and advocate it as a safe, proper and indeed necessary medicine to every business man who is worn out, tired and sick."—Leon J. Charles.

The symptoms of catarrhal nervousness are—A foreboding of calamity, a sense of something awful about to happen, twitching of the eyelids, moving brown specks before the eyes and metallic ringing in the ears, sour stomach after eating, with belching of gas, a feeling of great weight in the stomach, morbid fear of leaving home, a constant desire to talk of symptoms, chills and hot flashes, hands and feet usually cold and clammy, general tendency to coldness and dryness of the skin of the whole body, neuralgic headache, nervous chills, hysteria, sinking and faint spells, distressing palpitation of the heart, defective eyesight, total inability to read, write or do any business, urine abundant, without color, loss of flesh, sleeplessness and sexual excitability. Some of these symptoms are present in every case.

All that is claimed for Peruna is that it cures catarrh, wherever located, by its action on the vaso-motor system of nerves. That it is a specific for that phase of catarrh called catarrhal nervousness the accompanying letters show:
Mr. T. W. Scott, Custom House, San Francisco, Cal., writes:
"Some time ago, suffering from indigestion, loss of sleep, and what might be termed general exhaustion, I was recommended to try Peruna, which I did, and found that it did all that is claimed for it."
If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.
